

Kern County Narcotics Anonymous

Public Information Outreach Report

Date: May 27, 2024

Location: 5917 Knudsen Dr., Bakersfield, CA

Event Overview

The public information outreach event was held on May 27, 2024, at 5917 Knudsen Dr., Bakersfield, CA. The event was organized by Pastor David Holt of Church Without Walls, with significant contributions from various notable agencies, including the California Commission on Sexual Exploitation, City Serve, Unity K-9 Express, and local community members Armando and Bob Hodell. The event successfully gathered approximately 100 attendees from the local community.

KCNA Booth Activity

Our Narcotics Anonymous booth saw a steady stream of engagement throughout the event. Around 20 individuals approached the booth to inquire about our services and resources. These interactions provided an excellent opportunity to spread awareness about Narcotics Anonymous and its mission to support individuals struggling with addiction.

Materials Distributed

During the event, I personally distributed 15 Narcotics Anonymous pamphlets. Each pamphlet was customized with the NA helpline number and the website address for the Kern County Narcotics Anonymous (KCNA.org) to facilitate further assistance and information for those interested.

Outreach Impact

The presence of KCNA at the event ensured that attendees were well-informed about the support systems available for addiction recovery within the community. By providing essential information and personal engagement, we helped increase awareness and access to NA resources.

Additionally, the event ensured that all attendees were fed and clothed, demonstrating a holistic approach to community support and care.

Collaborations and Acknowledgements

We extend our gratitude to Pastor David Holt for organizing this impactful outreach event. We also appreciate the collaborative efforts of the California Commission on Sexual Exploitation, City Serve, Unity K-9 Express, and the support from Armando and Bob Hodell. Their involvement significantly enhanced the reach and effectiveness of the event.

This outreach event exemplifies our ongoing commitment to providing essential information and support to individuals affected by addiction in Kern County. We look forward to participating in future community events and continuing to expand our outreach efforts.

Respectfully submitted,

Lonnie H.
